-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 9/28/05.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## DETAILED ACTION

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

Claims 1 and 3-5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, lines 3-5, it is unclear what structure the Applicant is referring to by "which are undercut in a complementary manner." It is unclear whether Applicant is claiming undercut profiles on one of the cover plates or the core or both.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1 and 3-5 are rejected under 35 U.S.C. 102(e) as being anticipated by Marnay et al. (US 2004/0117022A1).

Marnay et al. disclose an intervertebral implant or prosthesis including two cover plates (11, 30) and a prosthesis core 50 wherein core 50 is connected to plate 30 by substantially straight undercut "connection profiles" that point generally inwardly or "are arranged" at an angle to one another wherein the angle is clearly not obtuse (Figs. 10, 11 and 13 and paras [0041] – [052]). See marked up Figure 10 on the following page.

Regarding claims 3 and 4, Marnay et al. disclose an engaging structure 44 arranged on a ventral side of the prosthesis having a pair of laterally arranged profile sections (see marked up Fig. 10 below).

### ***Response to Arguments***

Applicant's arguments submitted under "REMARKS" in the response filed on September 28, 2005 have been considered. Applicant's amendments overcome the objections to the specification made in the previous office action. Applicant's arguments with respect to the rejections of claims 1 and 3-5 are not persuasive for the following reasons.

Marnay et al. clearly disclose a pair of undercut substantially straight profile sections symmetric about an anterior-posterior direction wherein the profile sections are arranged at an angle to one another as discussed above. It is noted that "substantially straight" does not imply that the profile sections are completely straight. The recitation "an angle to one another" does not exclude a zero angle. Further, the reference axes for measurement of the recited "angle" is not defined in claim 1.

With regard to claim 4, nothing in the claim language structurally relates the laterally arranged profile sections to the previously recited straight profile sections.

### **Conclusion**

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
